

## Covid-19 Policies and Procedures

It is our top priority to keep everyone safe and healthy during this time while bringing the JOY of dance into our students' lives. Studios are sanitized between each class and at the end of the day. Restrooms and common areas are sanitized at the beginning and end of every day.

To continue to keep our dance family as safe as possible, we will be wearing masks at this time. This will also allow us to move around the room more this year (yay!). We will update this policy as needed throughout the year as things are constantly changing.

### COVID Screener

Does your child have any of the following NEW or UNEXPLAINED symptoms, even if they are fully vaccinated against COVID-19 or have had COVID-19 within the past 90 days? Explained symptoms are symptoms you have a reason for (muscle ache after flu shot, runny nose caused by seasonal allergies). Medical documentation must be provided as proof of an explained symptom. If you answered YES to any of these questions, your child must stay home from dance.

Has your child had close contact with a confirmed diagnosis of COVID-19?

- If YES, and they are NOT FULLY VACCINATED against COVID-19, they will be excluded and required to self-quarantine and get tested 5-7 days after exposure.
- If YES, and they ARE FULLY VACCINATED against COVID-19 or have been diagnosed with COVID-19 via an Antigen or PCR test within the past 90 days, no

exclusion is required, but they must test 3-5 days after exposure and use a facemask for 14 days after exposure or until the person tests negative.

In the last 14 days, did your child travel internationally or on a cruise ship?

- If YES then you must remain home and get tested before returning to the studio.
